It was a very nice event, and I was enjoy to have time to discuss with Alex and Gwendoline around _____ services.

The place was one of the best place in Paris and perfectly organized. I was also enjoyed to meet my peers for sharing ideas and good practices on Security over SAP.

Everything was perfect! I enjoyed very much the evening, exchanged a lot of information with my peers, and of course enjoyed this great location.

Once again, many thanks for this unique opportunity to meet some peers we don't have the time to meet in the every day's life!

EXECUTIVE GUESTS TESTIMONIALS

I'll give you my thoughts while they're still fresh...

Good points :

- *Very good venue, very good cuisine*
- *Networking : I met some interesting people I didn't already know, from companies I didn't meet ordinarily. Having innovation directors and CISO discussing is a very good idea*

Apart from the organisation, I think the evening is less valuable if the organiser don't speak French. We all were able to speak in English, but honestly our fluency, mine included, is not that good, and moreover having only one English-speaking person out of 8 makes it difficult to keep speaking in English. And quite rudely, sometimes, we spoke only in French. I had the feeling the conversation was more fluid at the other table.

I hope my comments are of any use to you.

Once again, thank you for your invitation.
