## EXECUTIVE GUESTS TESTIMONIALS

*The event was great. The setting allowed good opportunity to meet and discuss with peers on the topic and share challenges. The moderator did a good job of providing insight while getting audience participation to keep the discussion engaging and relevant.*

*We discussed as a follow up is to go deeper into specific areas like PaaS, IaaS, sales models ... the structure would be to have a couple of use cases to share and use them to educate and engage in a deeper discussion.*
