EXECUTIVE GUESTS TESTIMONIALS

The dinner was really nice, and absolutely excellent discussion as we had experts from all fields and they had very interesting perspectives on the topic. Having such a valuable mixture of skills could be used even more if we had more time to interact as unique perspectives really provided some new input to the problems which are almost impossible to solve by only IT, for example.

Alex's presentation regarding SAP Cybersecurity posture was excellent, we must focus on 2 aspects: SAP Product Security and SAP Implementation Security. Alex covered the first one really nicely, he can add a bit more regarding SAP implementation Security in the future.

All in all it was really valuable evening for me.

Thank you very much for the invite to the Select World Services' Executive Dinner "Aligning InfoSec and Audit to Automate SAP Cybersecurity.

It was a great event, thoroughly well-organized round table discussion with executives; business leaders and security professionals from all industry sectors.

Cyber security is among the most pressing issues facing the corporate world today, and companies are becoming increasingly vulnerable to attacks. It was a great opportunity to listen and discuss challenges with key stakeholders.

I look forward to future events.

Thanks a lot for hosting me last evening. It was a great experience, from office pick up to the drop off back home all went very smooth. Food and beverages were great too and of course there is not much better it can get as it relates to the location.

The event was very well organized and I appreciate the fact that it was not just a sales presentation. It was a very pleasant networking event.

Looking forward for the creation of the linked in group and possibly another event at some point the future.

EXECUTIVE GUESTS TESTIMONIALS

The dinner last night was lovely -- a great mix of companies from relatively small to global giants, and industries. The attendees were open in sharing challenges and concerns and showed we have many of the same issues despite the differences in size and business type. Clearly, the topic was extremely relevant. It was also a very nice and lively group of people. The dinner was superb and the location was grand. Thank you also for arranging for beautiful weather and a full moon. I'd be remiss if I didn't point out how well run the event was. Both speakers from our host were well prepared, engaging and kept everyone's attention. The slides focused the discussion but did not overwhelm with information to detract from the conversation. The other members of the event team were friendly, well organized and nimble, even arranging a change for dessert to allow us to enjoy ending the evening out of doors. Thank you very much for inviting me. I learned quite a few new things and really enjoyed myself.

I enjoyed the event and the discussions – overall a great evening. Location and chauffeur service are perfect and don't a change. What I and some others I spoke to found a bit odd is the fact that it wasn't clear who is the company behind the event upfront. I would appreciate more transparency here in the future.
