**EXCLUSIVE EXECUTIVE DINNER BY INVITATION ONLY**

# FROM DETECTION TO CONTAINMENT: THE NEXT ERA OF CYBER DEFENSE

Security leaders today are facing a fundamental shift in how attacks unfold. Modern breaches no longer rely on a single perimeter failure. They exploit east-west movement across hybrid infrastructure, moving rapidly between workloads, identities, and cloud environments.

At the same time, organizations are operating across multiple clouds, fragmented security controls, and increasingly automated attack techniques, making traditional detection-centric security strategies insufficient.

This executive dinner will bring together cybersecurity leaders to discuss how organizations are evolving from detect-and-respond models toward containment - focused architectures that can stop attackers from spreading once inside the environment.

Through peer discussion and real-world examples, we will explore how security teams are reducing breach impact by improving visibility into east-west traffic, closing multi-cloud control gaps, and deploying segmentation strategies that limit attacker movement across modern infrastructure.

**JOIN US** for senior-level conversations, exchange of ideas and networking at Select World Services' exclusive, by invitation only Executive Dinner – **From Detection to Containment: The Next Era of Cyber Defense**

This particular Executive Dinner is for executives with the following titles and responsibilities:

- ▶ Chief Information Security Officer (CISO)
- ▶ Deputy CISO
- ▶ Chief Security Officer (CSO)
- ▶ VP Security / VP Cybersecurity
- ▶ VP Infrastructure Security
- ▶ Head of Cyber Defense
- ▶ Director of Security Architecture
- ▶ Head of Cloud Security
- ▶ Director of Cloud Security Engineering
- ▶ Head of Security Architecture
- ▶ Principal Security Architect
- ▶ Enterprise Security Architect
- ▶ Director of Security Operations (SecOps)
- ▶ Head of Threat Detection & Response
- ▶ Director of Incident Response
- ▶ Director of Cyber Defense
- ▶ VP Infrastructure
- ▶ Director of Platform Engineering
- ▶ Head of Cloud Infrastructure

## WE WILL DISCUSS:

- ▶ The growing exposure inside modern networks: While most security investment still focuses on perimeter defense, the majority of enterprise traffic now moves internally across workloads, identities, and cloud services; creating blind spots attackers routinely exploit.
- ▶ Why modern breaches spread faster than organizations can respond: Once initial access is gained, adversaries move laterally across applications, infrastructure, and cloud environments, turning small incidents into enterprise-wide disruptions.
- ▶ The operational reality of securing hybrid and multi-cloud environments: Security teams must manage AWS, Azure, on-prem, and Kubernetes environments with disconnected tools and inconsistent controls, making unified visibility and policy enforcement increasingly difficult.
- ▶ The rise of machine-speed attacks: As adversaries leverage automation and AI to accelerate reconnaissance and movement, security teams are under pressure to respond and contain threats at a similar speed.
- ▶ A strategic shift toward breach containment: Leading organizations are focusing on limiting blast radius, using segmentation and workload-level controls to stop attackers from spreading even when initial defenses fail.

**SELECT  
WORLD  
SERVICES**  
Foresight, turnkey, exclusive.

Select World Services (SWS) is a global, full-service event company offering complete 100% turnkey event planning & management services, programming & production, entertainment & special event coordination, and event promotion. Our services are available throughout the globe to assist companies in delivering highly-effective, result driven events, proven to deliver ROI.

SWS works with global companies to achieve strategic objectives and deliver events which will save organizations time, money and resources. We pride ourselves on a high quality, executive approach to deliveries.

Our experience and reputation for excellent customer service and returns on investment make us stand out for the competition.

The premier CxO dinners provide a platform for senior level Executives around the globe to come together in an intimate, controlled environment to exchange ideas regarding particular topics that are of immediate interest.
