## TESTIMONIALS

Hear what the executives around the globe have to say...

The arrangements, attendees and venue were excellent as usual from your company.

SVP, Head of Cyber Defense, Functions & Technology  
Chief Information Security Office  
Citi

Overall, I found the event a good use of my time. It was great to meet other like-minded professionals to discuss relevant topics. Would love to attend future events.

Chief Risk Officer - Payments  
US Bank

"It was the first time I attended an event that was set up in this way.

Mix level of attendees was according to my expectation.

I connected after the event already with some attendees via LinkedIn, so good from networking perspective.

Well organized and excellent location/food."

Head of Technology Procurement  
VodafoneZiggo

"Thank you for an excellent event and highest professional level of service."

VP Business & CFO Operations  
Ericson (USA)

The event was well organised. Thought leaders had the opportunity to share their organisational challenges on digital transformation and take best practice from others in the middle of their respective change agendas. I have always known this, but what was a welcome reassurance was; digital transformation is beyond the technology, you need the "human touch" to make any change successful. Look forward to future events.

VP, Direct Digital  
Barclaycard UK Cards

"I'd like to thank you and the entire SWS team for the wonderful event.

I'm looking forward to the next one as I'm sure others are as well."

Director Data Science and Model Innovation  
Scotiabank

"It was really great. The atmosphere, the food, the great presentation and above all the interesting people. Look forward to another session."

SVP Corporate Controlling  
Air France-KLM

"Great organization. Great location. Excellent choice of attendees.

Very good service by chauffeurs."

CIO  
Saint-Gobain

"Thank you for the event. The event was well organized.

The diversity of attendees, the round table discussion, and the presentation were insightful and good knowledge sharing."

*Director Innovation & Advanced  
Technology Validation  
Etisalat Group*

"Thank you for the dinner. It was well attended and a good discussion.

Great to see TSIA and JB Wood again as well as several other participants. This is a small networked world.

I found the content relevant and people quite engaged."

*SVP Global Cloud Services Delivery  
SAP*

"I had a great time at this event. The audience was small, and the quality of the attendees was excellent. It was also very well organized and run, and the speaker was really interesting and engaging.

I would be more than happy to attend another one of your events."

*European Head of Information Systems  
Virgin Active*

I found the evening with SWS really useful. The guests were top flight and really relevant to the conversation around digital. Good clustering of guests in key industries and also fantastic food, wine and venue. I'd be very keen to attend future events and would recommend the experience,

*CTO  
Redington*

"It was a great and very insightful event. Most participants were very knowledgeable in the field and we had meaningful takeaways.

I would love to participate in the future events."

*COO and VP, Cloud Business Unit  
Hewlett-Packard Enterprise*

"The event was very useful, and the mix of attendees helped making the discussions constructive and useful.

Would love to keep in touch and hear more about the sponsor and its services."

*Senior IT Director  
GLENCORE  
(Switzerland)*

"It was a nice evening; I did enjoy it and benefit from my peer's insight in the same time.

Thanks for inviting me and well done for a well-organized event."

*Group CIO  
TDA Capital*

Thank you again for the invitation, it was my first event of this kind, and I truly enjoyed the evening.

I think the format was great as it allowed a lot of informal discussions with peers and the fact that the groups at cocktail and at dinner were different allowed us to be introduced to a wider range of people.

Having someone from the hosting company also helped drive the discussions and highlight similar problems other companies are facing.

Overall very well organised and happy with the outcome.

*Head of Supply Chain France  
British American Tobacco*

Thank you for inviting me. The event was very well organized and executed. Service was superb and distinct.

I have been in similar events with other organizers but SWS's preparations, attention to detail, venue choice and overall service/dinner was excellent. It was a true 'executive' event/dinner experience, well done. As for the learning and exchange, as always it depends on participants contributions.

I am pleased as I had a good chance to connect, ask questions as well as test my views and get feedback. I would love to join again if there is a matching content/context, thank you for offering.

Head of Strategic Programs, Global Customer Operations  
*NOKIA*

Thank you for hosting the dinner and for inviting me. I particularly enjoyed meeting a wide variety of business leaders I would not normally interact with. This has opened up my vision of issues, in particular with respect to sustainability in the supply chain. It was a great networking event. Location perfect, great food and good hosting.

Chief Digital Transformation Officer  
*Vinci Construction*

Thanks again for the invite. Great place. Overall great concept. I like meeting with peers, and these sessions, evening slots works best for me.

Head of Global Supply Planning  
*Sanofi*

As said, well organized, good mix of time to discuss with other executives as well as getting information from the hosting company.

Senior Vice President Innovation @Edge at  
*Schneider Electric*

Thank you – this event was extremely valuable and appreciate learning more about the security challenges and Gigamon organizational capabilities.

Chief Information Officer  
*Chapters Health System*

It was a really great evening - excellent networking, and very insightful and productive dinner event.

Thanks so much to all the efforts you and your team have organized this event so perfectly. The transportation service you provided was so luxurious comfort and reliable. The service has highest standard of skilled chauffeur with very courtesy and professional dressed, accompanied with punctuality reliability, and conscientious customer service and care.

Although my pick up and drop off destination was out of range from the event location, you were willing to make an exception for this transportation to serve me for the entire round-trip services.

The restaurant you chose for the dinner event was so delightful from start to finish. The delicious food and drinks, impeccable service, and charming ambiance made this event for a memorable experience.

Further, also thanks so much for your sponsors and their professional presentation and technology insightful information about the cyber security perspectives to enable participants from various industrial executives to exchange ideas, providing profound discussion in the sophisticated subjects and collaboration, as well as serving highly technology advances in cyber security spectrum with a platform for communication and visibility.

Vice President Information Security  
*BNY Mellon*
